Report on the Hospital Visit at Karuna Hospital, Borivali

The hospital visit to Karuna Hospital, Borivali was organized for the students of First Year Diploma in Pharmacy (F.Y.D.Pharm) and Second Year Diploma in Pharmacy (S.Y.D.Pharm) on Friday, 13th March 2026. A total of 26 students from F.Y.D.Pharm and 15 students from S.Y.D.Pharm, accompanied by faculty members Ms. Neha Mali and Ms. Krutika Bhoir, visited the hospital. The students and staff reached the hospital at 2:00 p.m. and were warmly welcomed by HR Deputy Manager Ms. Vina Prabhu, Executive Director Sister Michelle, and Administrator Sister Rochelle.

The students were divided into two groups and guided by the faculty members along with the hospital staff. During the visit, students were introduced to various departments and facilities of the hospital. The hospital has a well-organized Outpatient Department (OPD), five Operation Theatres, an 8-bed ICCU, Physiotherapy Department, In-house Pharmacy, Radiology Department, Pathology Laboratory, Mechanized Laundry, and beds for different categories of patients.

The Community Centre, established in 2002, provides healthcare services to economically weaker sections of society. In 2004, Ashadeep, a centre for HIV/AIDS patients, was started. To meet the increasing demand for critical care services, the ICCU was expanded, and in 2006 new facilities such as the Multi-Slice CT Scan Centre, Department of Dentistry, and an upgraded Pathology Department were introduced along with additional beds. Over time, the hospital developed into a 156-bed multi-specialty hospital, providing healthcare services to patients from Dahanu to Andheri. Further expansion led to the establishment of the Karuna Cardiac Centre and a Postgraduate Study Centre with hostel facilities for doctors and nurses.

Throughout the visit, students observed the functioning of different hospital departments and interacted with the hospital staff. Overall, the visit was informative and educational, helping students understand the structure of a hospital, various healthcare departments, patient care services, and the role of healthcare professionals in a hospital setup.
